At last "Luce & His Empire" by W. A. Swanberg (Scribners) is out. That's the book I wanted my "stuff" for and it does have quite a lot by - and about - me in it that might amuse you. The net result is that Scribners wants my own European "Memoirs" - 1934-47 and I am at work on them now. Of course thinks the book will be entirely about him & gives constant advice from a distance. I keep pointing out he is only one character in it - But it's impossible, I find, to make any German regard themselves as anything but the center of the universe!
